Professional Summary (Software Engineer)

Passionate and detail-oriented Computer Science graduate with a strong foundation in software development and algorithmic problem solving. Achieved 3-star rating on GeeksforGeeks and a highest LeetCode contest rating of 1587, showcasing strong analytical skills and consistency. Proven ability to apply engineering principles through real-world projects involving a responsive Myntra clone and various JavaScript-based web apps focused on performance and clean UI design. Quick learner with a focus on performance, observability, and collaboration in fast-paced team environments. Eager to contribute to impactful solutions at Microsoft.

Education

Narula Institute of Technology   CSE

Bachelor of Technology , Frontend Development

Expected Graduation: July 2027

TECHNICAL SKILLS

Languages: Java (Primary), Python, JavaScript, C++

Libraries: React

Tools & Platforms: Git, VS Code, IntelliJ, Firebase

Other: OOP

SOFT SKILLS

solve complex problems, time management, reliability, Cooperative, creative

PROJECT EXPERIENCE

Myntra Clone – E-commerce Web App

React, Redux, Simple Backend

- Built a responsive shopping interface with product filters, cart, and Wishlist features.
- Managed global state using Redux; simulated backend with local data for product flow.
- Designed a clean, responsive UI using **CSS Flexbox** for cross-device support.

Other Projects:

Calculator App, **Stone Paper Scissors Game**, **Minimal-To-do List App**– Built lightweight frontend apps using **JavaScript** and **React** for logic-building, UI transitions, and user interaction handling.

Coding Profiles

- [**GeeksforGeeks**](#)**:** 3 ⭐ coder (Data Structures & Algorithms)

- [**LeetCode**](#)**:** Contest rating (highest) **1587**, solved **250+ problems**
